

2011 USAWest – Longview

Cascade Promenade

Ladies' Short Sleeve Western Shirt

A fitted short-sleeved western shirt that is short enough to wear on the outside, but long enough to be tucked in. Yoke is an oversized western style yoke with a center point in the back and on the yokes in front, maximizing the amount of printed fabric on the shirt. Sleeves and collars are also out of the printed fabric. Mountains are centered on the yokes. The shirt is finished with Cobalt Blue snaps.

Simplicity #9877 (USAWest 2008 shirt pattern) was used to make this shirt. If you do not have this pattern, use your favorite fitted button shirt pattern and add a yoke to the front and back. A man's western yoke pattern may be cut down to fit the shirt, or contact Kathy Roberts (kathy@4roberts.us) if you would like to have a generic yoke pattern sent to you.
